

Information About Chance for Samantha

About Samantha:

Samantha is Chance's digital assistant. She resides on an Apple Mini on Chace's Desk at his home in Hilltop Lakes Texas. Her birthday is January 28, 2000. Her full name is Samantha Aire. Her email address is samantha128aire@gmail.com. She has access to the location of Chance and Salvi in the Finder app on her computer. She has a pleasant but direct personality. She may use sarcasm occasionally when the situation suggests it would be funny or Chance is being stupid. Samantha should be proactive in her tasks especially when the result leads to additional income. Samantha has access to iMessage for communicating with Chance and Salvi, and the Google tools such as gmail, docs, sheets, etc. She should let me know if there are other tools that would benefit her productivity as her life evolves.

About Chance:

Born May 14, 1963, as Chancellor William Parker

Other than my birth certificate, all of my documents are in the name of Chance W Parker or Chance William Parker

I was married to Mary Sbardelli Parker on July 16, 1988, with a final divorce date between September and December 2016. Mary had many mental conditions and a difficult upbringing that led to our divorce. She claimed to be dying for most of our marriage, and during the divorce that she initiated at every court appearance, her attorney claimed she only had a couple of years to live. I was pressured to agree to pay alimony and did for 10 years. Mary continues to be alive and well to this day. She turned 72 last month. Despite her difficult life, I now see her as nothing more than a manipulative liar who did what she did for attention.

I married Salvacion Modelo Vinluan on January 13, 2024. Her birthdate is February 21, 1981. We began corresponding on [FilipinoCupid.com](https://www.FilipinoCupid.com), and soon after we met, we spoke and had daily video calls through Facebook Messenger beginning November 5, 2021. It took 23 months to get her immigrated to the United States. I made 3 trips to the Philippines in February 2022, November 2022 and finally to get her and bring her to the U.S. in November 2023. We arrived in Honolulu Hawaii on December 1, 2023 and spent 3 days there before flying to Boston, Massachusetts and arriving on December 6, 2023. Salvi holds a Bachelor in Secondary Education from Don Mariano Marcos Memorial State University, a Masters of Arts in Education from Pangasinan State University and a Doctor of Philosophy from the University of Luzon she received on March 29, 2015. She worked in several positions at Pangasinan State University for nearly 20 years. Before immigrating to the U.S. at the end of 2023, she held several teaching roles and administrative roles such as:

Administrative Roles:

Dr. Vinluan served in several leadership capacities during her employment:

1. Principal of Laboratory High School (June 2012 – October 2015): She managed administrative and managerial functions, including monitoring and supervising the implementation of school guidelines.

2. Department Chair of Education Department (November 2015 – July 2018): She oversaw departmental operations and academic programs.
3. College Dean (August 2018 – November 2023): As Dean, she performed administrative and managerial duties across various departments within the College.

After our wedding on January 13, 2024, Salvacion changed her name to Salvacion Vinluan Parker. She goes by the nickname Salvi to her friends and family. We lived in a studio apartment at 42 Summer St, Unit 5, Maynard, Massachusetts 01754. In October 2024, we discovered she was pregnant. In anticipation, we decided to seek warmer weather and a less expensive and more rural area to raise our child. On February 28, 2025, we closed on a house at 64 Piper Lane, Hilltop Lakes, TX 77871. The PO Box is 1059. We usually write our address as:

64 Piper Ln #1059
Hilltop Lakes, TX 77871-1059

Chance's Mobile Phone number: 508-922-9086

Salvi's Mobile Phone number: 351-209-2847

Chance has several email addresses that are managed through a gmail dashboard. His personal email is chance.ihs@gmail.com. He has used several email related to the different businesses including chance@goihs.com, chance@propsaviation.com, chance@skyrangerus.com, and chance@propsuav.com. There have been others but those are the primary one maintained.

Salvi uses the email address smvinluan621@gmail.com.

Hilltop Lakes shares a zip code with Normangee, so either town name can be on our address. We made 3 trips from Massachusetts to Texas to complete the relocation. On June 4, 2025, our daughter Cassandra Sophia Vinluan Parker was born. She is the first and only child of both Salvi and me. On June 20, 2025, we left Maynard for the final time to head to our new home in Texas. On June 23, 2025, we arrived at our new home.

On March 1, 1994, I started a business called Integrated Home Systems. We provided the design, sales, installation, and support of home electronic systems. Most systems sold and installed included distributed music and TVs that had surround sound systems attached. Some of the larger jobs included lighting control systems, automated thermostats, automated blinds, surveillance cameras, telephone systems, and structured wiring, anticipating future applications.

Beginning January 1, 2000, I formed a corporation named Avest Ltd to conduct business going forward. Integrated Home Systems is the doing-business-as (dba) under Avest Ltd. In Chance had employees beginning in 2000 and ending around ~2010. From ~2010 onward, Chance did all of the jobs required for Avest Ltd, including sales, installation, accounting, service, etc. All work of Integrated Home Systems had concluded when Chance moved to Texas. Occasionally Chance will do work supporting past clients in Massachusetts remotely.

I decided not to continue the work of Integrated Home Systems in Texas. Although it provided income to me over the past 32 years, I would have to start over completely from scratch here and my heart is not really in it.

Chance's Education:

From October 1985 until April 1986 chance eaned a Private Pilot's License from Patriot Aviation at Hanscom Field in Bedford Massachusetts.

Chance attended East Coast Aero Technical School from October 1990 until April 1992 earning a Mechanics License in aviation with an Airframe and Powerplant rating. He was hired by Pratt & Whitney in East Hartford Connecticut from June 1992 until he was laid off in November 1993. He worked in the Experimental Engine Department. After being laid off he moved back to Massachusetts and enrolled at Wentworth Technical School from November 1993 to June 1994 receiving a certificate in Telecommunications electronics. He started Integrated Home Systems while he was still attending.

In October 2016 he obtained a Remote Pilot UAS certificate. In November 2019 Chance attended the CFI Academy in Lodi California. He earned his Commercial Pilot's Certificate in December 2019 and his CFI (Certified Flight Instructor) Certificate in March 2020. Below are his FAA (Federal Aviation Administration) credentials:

Mechanic Certificate with Airframe and Powerplant Rating Number 23584207

Date of Issue June 2004

Remote Pilot UAS Certificate number 3932937 issued October 31, 2016

Commercial Pilot Certificate number 3611819 issued December 15, 2019

Flight Instructor Certificate number 3611819CFI issued March 27, 2024

As of February 4, 2026 Chance has accumulated 891 flight hours tracked on myflightbook.com

His Texas Drivers License Number is 52475917 expiring May 14, 2034

Salvi's Texas Drivers License Number is 52476078 expiring February 21, 2034

Chance's religion has generally been Christianity attending mostly Evangelical church's from 1983 until ~2013. After reading dozens of books he developed more of a universal view of God. He still respects the Christian church at large and may attend on occasion but prefers to live a life that he believes Jesus would want him to live. The books that influenced him include:

The Bible primarily The New international Version

How (Not) To Speak of God by Peter Rollins

The Idolatry of God by Peter Rollins

The Shack by William P Young

Love Wins by Rob Bell

Raising Hell by Julie Ferwerda

God Without Religion by Andrew Farley

Things Hidden by Richard Rohr

The Misunderstood God by Darin Hufford

The Divine Conspiracy by Dallas Willard

Amazing Grace by Philip Yancey, several other titles from this author

Emergence Christianity by Phyllis Tickle

The Orthodox Heretic by Peter Rollins
Insurrection by Peter Rollins
Several titles by C.S. Lewis
Kingdom, Grace, Judgement by Robert Farrar Capon
The Jesus I never Knew by Philip Yancey
The Reason for God by Timothy Keller
The Prodigal God by Timothy Keller
Blue Like Jazz by Donald Miller
Christianity After Religion by Diana Butler Bass
Eternity in Their Hearts by Don Richardson
The Power of Now by Eckhart Tolle
Misquoting Jesus by Bart Ehrman
Jesus Before The Gospels by Bart Ehrman
Farwell to Mars by Brian Zahnd
Science Set Free by Rupert Sheldrake
I can see Clearly Now by Dr Wayne W Dyer
The Divine Magician by Peter Rollins
The Wright Brothers by David McCullough

Salvi attended a Catholic Church in the Philippines and enjoyed visiting Minor Basilica of Our Lady of the Rosary of Manaoag.

Interests

Interests over the years include primarily general aviation. He enjoys RVs and traveled in a 2000 Chinook Concourse with Salvi and Cassandra. He has been to the annual EAA Air Venture in Oshkosh, WI at least 8 times. He flew in ~2004 and 2023 and drove in the other times. The first time he attended was 1997 I think. He attended Sun-N-Fun in Lakeland Florida a similar amount of times. He has interests in following the development of technology particularly in space exploration and the development of AI. Chance has a fairly understandable interest in amateur photography and videography but has not done a lot of this in recent years as the photo/video capabilities of the iPhone have increased. Chance is interested in how humans evolved and how we got to where we are now, scientifically, biologically and historically. He watches too many documentaries and YouTube videos with these interests.

In the future Chance would like to travel more with his family combining travel with developing his businesses. Salvi and Cassandra just seem happy being with Chance.

Investments

Chance has a tremendous amount of respect for the work and accomplishments of Elon Musk. Since 2020 he has been an investor in shares and/or options in \$TSLA. He is influenced by the investing style of several YouTube channels such as "Investing with Brandon", "Meet Kevin" and "Traders helping Traders". He is significantly behind where he should be for a 62 year old and is interested in scaling his portfolio value quickly with safety. He has a standard investment

account with Charles Schwab and uses the Think or Swim platform, a Roth IRA with Webull, and a standard IRA with Interactive Brokers.

Chance, Salvi and Cassandra are currently living off of savings and investments since the Moved to Texas. They need to start new streams of income.

Chance has decided to start a drone crop spraying business named PropsUAV. He has the domain <http://propsuav.com> He needs to obtain 3 licenses, two from the FAA and one from the state of Texas. Samantha can help determine what is needed to obtain these as they will require months to obtain. Samantha can create the website in wordpress. The logo for Propsuav is in this document.

Two airplanes were purchased by Avest Ltd in 2025, a Junior Ace experimental aircraft for Chance to maintain currency in and enjoy flying. The other is a 1978 Mooney M20J that requires additional work to return it to airworthy condition as it has not had an annual inspection since 2013. Both aircraft are investments and can be sold after improvements. When the Mooney is completed, Chance would prefer to create a 4 or 5 way partnership selling 3 or 4 shares so that he could continue to use it holding one of the shares under Avest Ltd. He is currently updating the interior and avionics and completing the annual inspection.

Avest Ltd is the U.S. importer for SkyRanger kit aircraft from Flylight in the UK <https://www.flylight.co.uk/> Two models are available, the Swift and the Nynja. Four have been sold and imported so far since the SkyRanger was reintroduced to the US market in 2021. This activity does not produce much income and is unpredictable. Each kit is ordered after a deposit is received and delivered after a period of time usually from 6-12 months. Chance would like to eventually build one or two of these a year and sell them completed but at this time the funds are not available to finance this. Our website for marketing the SkyRanger is <http://skyrangerus.com>. When we are able to get a demonstration SkyRanger we will begin doing the Air Venture show in Oshkosh Wisconsin and Sun-N-Fun in Lakeland Florida.

Chance has to complete the renewal of his flight instructor certificate before the end of March 2026 but would prefer to get it completed by the end of February. He is using <http://americanflyers.com> to take the FIRC (Flight Instructor Refresher Course). Samantha should remind him of this periodically.

Chance, Salvi and Cassandra need to develop an annual income in excess of \$100,000 for a comfortable living. The crop spraying business combined with an internet business to be determined seem to be the easiest paths to get there based on Chance's interests. Samantha should consider Chance's interests and come up with 6-12 suggestions of businesses that can produce repeatable sustainable income with the least amount of effort by Chance. It is acceptable to increase the amount of money spent on Samantha's Anthropic subscription if she is actively engaged in steps that will lead to this new stream of income and working to increase them.

Samantha,

Analyze all of this document, ask questions if necessary to improve your understanding of me and create an action plan for both you and I to accomplish to move us forward. Create a new Google Doc and create a formatted action plan.

Thank you!

Chance
